Welcome Back to Friendly New Upgrades in Your Stride Account.

Hello Stride Administrators and Teachers,

We've been busy this summer, and we've just delivered a number of upgrades to your Stride account. With Stride, you always have access to new features as soon as they're released, so you can enjoy these upgrades today by logging in!

**Improved Reports & Dashboards make it easier to access deeper data in fewer steps.**

*Better Report Integration*
The reports you love are improved and more directly integrated with teacher dashboards, with fewer steps to access data in just a few clicks. *Where to find them?* Real-time reports are housed in the Reports tab of the Administrator and Teacher control panels.
Better Report Data Filters
Advanced report filters such as Subject, Grade Level, Pass/Fail Threshold, and Student Name help you generate only the specific data you need (and save paper!).

See the Adaptive Engine History

F.A.S.T. 360 Adaptive Skill Path: Most Recent Mathematics
The following table shows the most recent activity and skills assignments by the F.A.S.T. 360 Adaptive Engine. Decisions are derived from both assessment data and adaptive logic based on our proprietary research-driven progression.

Where to find it?
From your main Teacher Dashboard, choose "See All Student Details" then click on any student name for a detailed view of progress.
**New Student Progress Report**
See each student's growth through strand complexity in new at-a-glance graphs that visualize the journey through the adaptive engine. Also view a step-by-step explanation of the student's progression through strands prescribed by the adaptive engine.

**Better Academic Badge Views**
Teachers can now view badges awarded by subject/date, and see total badges awarded by subject. *Where to find it?* Main Teacher Dashboard, then choose "View All Student Academic Badges."

New Tools to Expedite Stride Implementation

**Quick Print Student & Teacher Access Info**
Help your users access Stride faster by printing login guide sheets for teachers and individual students. Send student login guides home to parents to assist with accessing Stride after school. **Where to find it?** Look for the "Print Logins" buttons on the Class Manager tab for Administrators; on the Class Roster tab for Teachers.

**Assign Curriculum to Multiple Students at Once**
You asked, and now Stride delivers! Quickly assign specific skills practice or other curriculum settings to groupings of students. **Where to find it?** On the Curriculum tab for Teachers.

**Simplified Gap Assessment Settings**
A new, streamlined Gap Settings interface allows you to schedule Gap tests uniquely for individual students or the class as a whole. **Where to find it?** On the Assessments tab for Teachers; select "Gap Settings."

These new features are now ready to use in your Stride account.

**Questions on these updates?**
