What are Star Points?

Installing the Stride Web App on your Tablet:

On iPads, as soon as you visit www.stridestart.com for the first time, you will see a pop-up message asking you to Install the Web App and Add to Home Screen.

You should do this! On tablets, “App Mode” is the preferred method of signing in to Stride for the best performance. Other tablets besides iPads will have different instructions for adding apps and website icons to the home screen, so you’ll want to consult your tablet’s Help documentation.
